23	Cromdale Hills
24	Craiggowrie

**Blade Tip Zone of Theoretical Visibility (ZTV)
(200 m blade tip)**

- 1 to 3 turbines visible
- 4 to 6 turbines visible
- 7 to 9 turbines visible

Coordinate system: British National Grid
Projection: Transverse Mercator

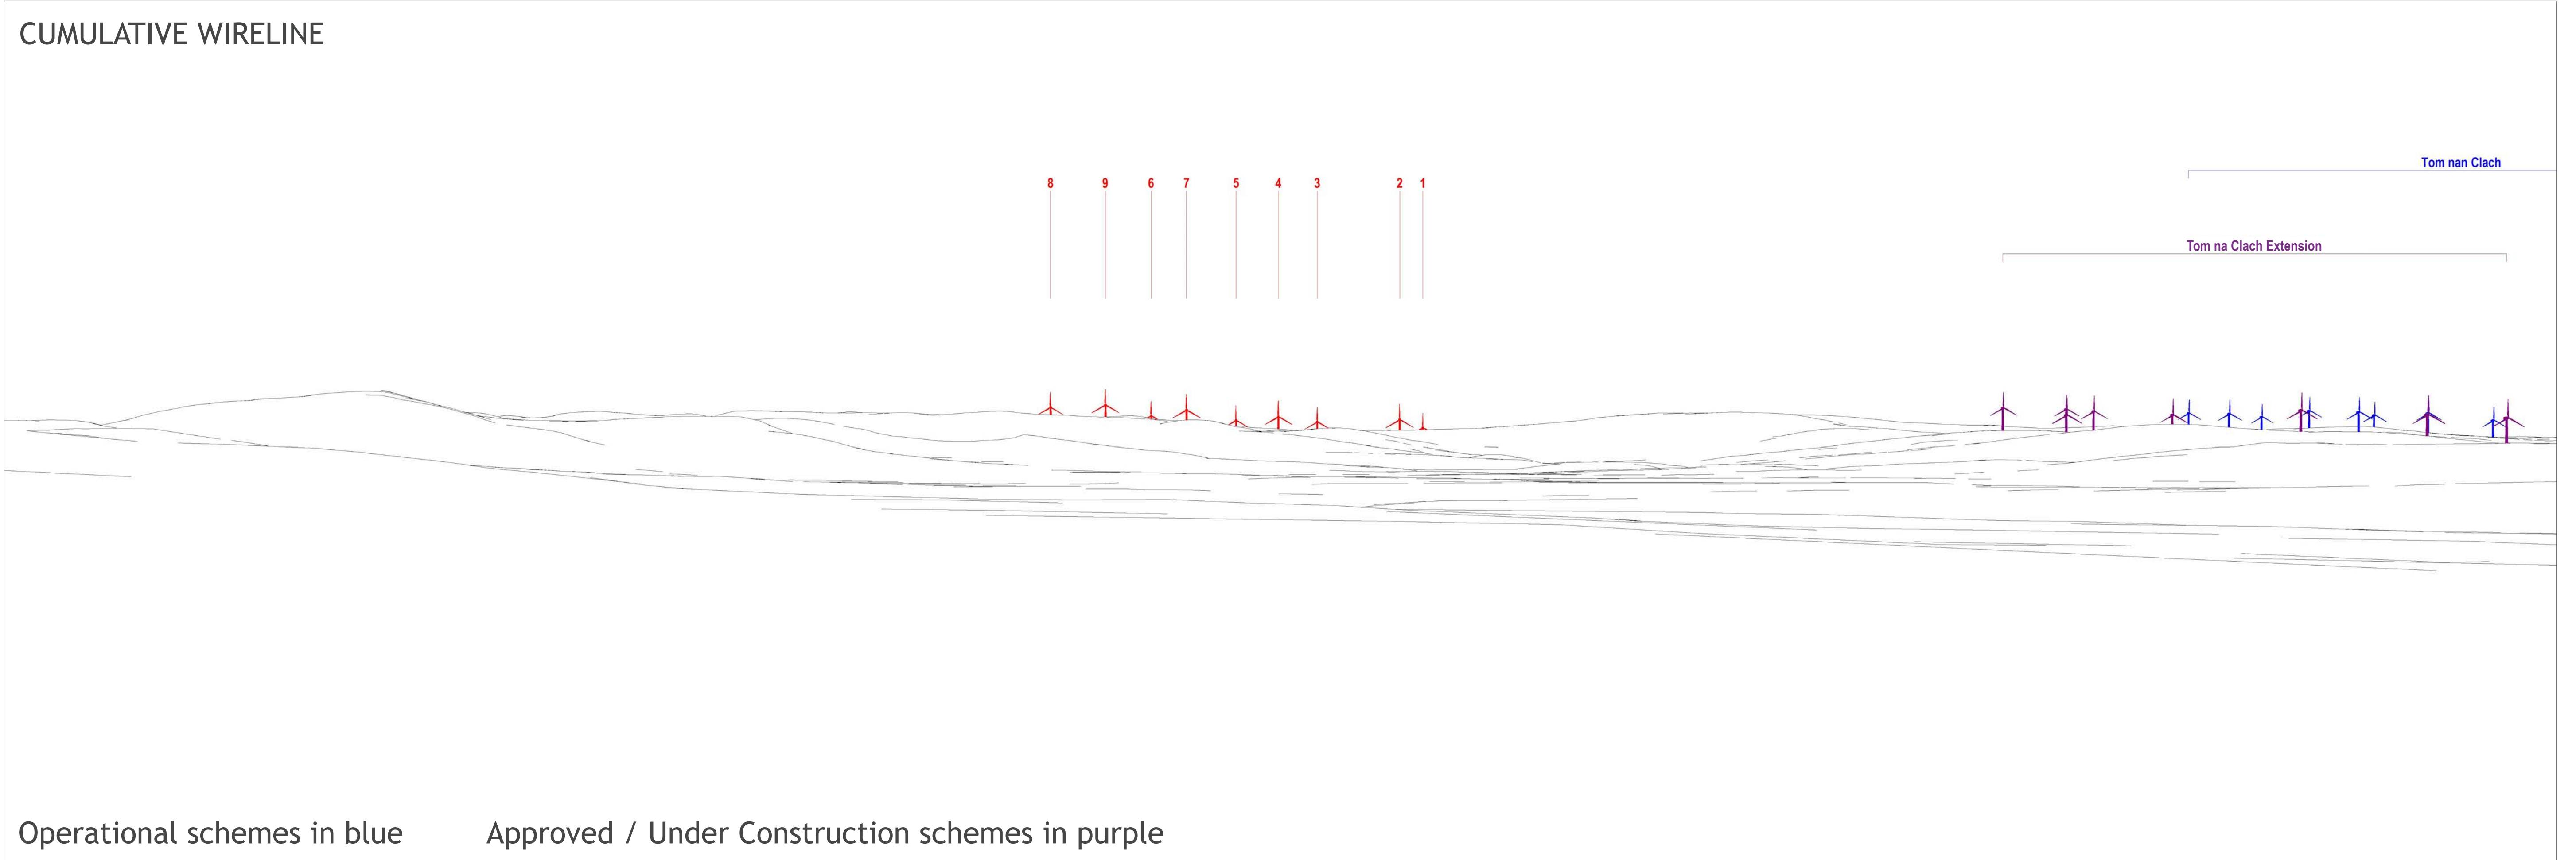

This ZTV image illustrates the theoretical extent from where all or part of the development would be visible from a view height of 2m. The image is produced using terrain data assuming 100% visibility. It does not take account of screening that vegetation or the built environment may provide. It therefore represents a 'worst-case' ZTV and the actual extent of visibility is likely to be much less extensive.

BLADE TIP ZTV WITH PROPOSED VIEWPOINTS
